

New Application for the IPT Extended Certification Program

The Institute for Phenomenal Touch offers four segments of extended certification training. Each segment is comprised of 5 four-day sessions that meet every four to six weeks, and is titled as follows: Phenomenal Touch Practitioner, Phenomenal Touch Advanced Practitioner, Phenomenal Touch Master Practitioner, and Phenomenal Touch Instructor. Graduates of each segment are not obligated to continue on to the next one, but do have the option to do so either immediately or within a two year time period. This advanced training program does not certify one to become a massage therapist per se, but rather accrues continuing education hours for existing massage therapists and certifies them to do Phenomenal Touch Massage. Non-massage therapists seeking to employ Phenomenal Touch techniques and principles into their auxiliary healing practice may do so as long as they do not refer to themselves as massage therapists.

The tuition for each 5-session segment is \$3,500 when paid in full at one time. If payment plans are required, there are two options available, both of which will add a small processing fee to each installment and require pre-authorization to charge credit card by designated dates. The payment plan options are: Option A - three installments of \$1,200 (made one month prior to session 1, one week prior to session 3 and one week prior to session 5); or Option B - five installments of \$750 to be paid no later than one week* prior to each session (*first & last session prior to start).

In order to reserve a space in this program (enrollment limited), a **deposit of \$750** (this includes the registration fee of \$150), made out to IPT, must be mailed in with this application. The deposit will be deducted from the remainder of the total tuition when paying in full, from the **last** installment when paying in thirds; or used to pay the **last** session when paying for each session individually. The remainder of total tuition; the first one-third payment; or the individual payment for **session one** will be due no less than **one month** prior to the start of the school.

Applying for the program does not guarantee acceptance. If one is **not** accepted into the Institute, the deposit, minus the \$150 registration fee, will be returned. Once accepted into the program, tuition is non-refundable. Those utilizing payment plans are responsible for full payment of the 5-session training, even if choosing not to complete program, emergency aside.

Graduates of each level of practitionership will have accrued 200 continuing education hours with each segment. Should one continue their studies all the way through to Phenomenal Touch Master Practitioner, they will have accrued 600 hours. Those who continue on to become Phenomenal Touch Instructors will have accumulated a total of 800 hours. These can be used to fulfill CE Hours for National Certification, AMTA and state licensing / registration requirements.

In order to graduate as a Certified Practitioner of any level of Phenomenal Touch Massage, students must fully attend and pass each of the five sessions for each segment; fulfill 5 practice and 2 mentor sessions between each session, and complete all assigned homework. If this is not done, students must make up the missed homework / session (through mentoring or DVDs with supervision) before they will be able to become certified.

The Institute for Phenomenal Touch teaches students much more than a collection of extraordinary moves and principles. The process of the Institute involves a deepening of one's soul. Embarking upon this program has the potential to transform one's life both professionally and personally. Students must be ready, eager and willing to do the work in order to become the best Phenomenal Touch Practitioner they can be. This program is more than just a massage training. It is a reverent, transformational, heart-opening shift in the way one touches and is in the world. Not only will graduates become true artists of touch with the capacity to earn a better living, but they will also become deeper, richer and fuller people to boot!
